# AVANGE

## Intune Device Management

Streamlined and secure device management and user onboarding for highly mobile and effective organizations.

## CHALLENGE

In today's digitally-driven workspace, organizations rely heavily on a diverse array of devices, including computers, tablets, and smartphones, to facilitate daily operations. Efficiently managing these devices, ensuring they adhere to security compliance standards, and deploying essential applications and policies can be complex and challenging. Organizations often grapple with the task of monitoring numerous devices, maintaining high security standards, and guaranteeing that appropriate policies and applications are assigned to the correct devices and users.

## SOLUTION

Avange aims to streamline and fortify your device management process. We conduct a thorough assessment of your device and user inventory, understanding the applications and policies pertinent to each. With a detailed scope of work, specifications, and a strategic action plan in place, we craft an Intune environment that is custom-fitted to your organizational needs. Through rigorous testing, governance documentation, and a comprehensive handover process, we ensure seamless onboarding of all devices and users into the Intune environment with the requisite policies applied. This approach enhances your organization's productivity and fortifies its security infrastructure.

## BENEFITS

- Increased Productivity: Microsoft Intune simplifies mobile device management, offering integrated data protection and compliance capabilities through a cloud-based infrastructure.
- Improved Efficiency: Leverage the scalable Azure platform to adjust your resources to meet your organizational needs efficiently.
- Simplified Management: The centralized management interface for Microsoft 365 facilitates easy policy definition and application, providing robust protection, monitoring, and management of enterprise workloads across diverse environments.

## Why Avange for Intune Device Management?

Avange stands out for Intune Device Management with our comprehensive approach that goes beyond mere technical implementation. We understand the importance of a mobile workforce and provide a management solution that is both user-friendly and secure. Our expertise in Microsoft technologies ensures that your organization benefits from best practices in device management, tailored to your unique operational needs.

## Benefits of Working with Avange

Choosing Avange for your Intune Device Management means entrusting your device ecosystem to experts who prioritize efficiency and security. Our service streamlines the complex process of device management, ensuring that every device is compliant and every user is empowered with the tools they need. With Avange, you gain a partner dedicated to enhancing your operational productivity and security.

## About Avange

Avange was born out of a deep understanding of both the corporate and humanitarian worlds. Our team boasts professionals who have collaborated with global giants in the private sector and have also been on the ground with esteemed organizations like the United Nations and Doctors Without Borders (MSF) European Space Agency (ESA), Argentinian Ministry of Health, and many other organizations around the world. This rich tapestry of experiences ensures that our approach is always rooted in real-world challenges and solutions.

Our strength lies in our diverse backgrounds, with team members who have navigated the precision of the corporate world and the unique demands of healthcare, NGOs, and government projects. This blend equips us with a holistic perspective, allowing us to craft IT solutions that are not only technologically advanced but also culturally sensitive and mission-aligned.

At Avange, we pride ourselves on our ability to bridge the gap between technology and the humanitarian and healthcare sectors. Our collective experience is our greatest asset, and our commitment is unwavering: to empower organizations to achieve more, serve better, and make a lasting impact.
