## PowerApps and Power Automate Deployment

Deploy custom applications and automated workflows efficiently with Avange's PowerApps and Power Automate Deployment service, enhancing productivity and fostering innovation within your organization.

### CHALLENGE

Organizations frequently encounter inefficiencies due to manual, time-intensive processes that impede productivity and operational fluidity. The absence of automated workflows and custom applications, specifically tailored to address unique business needs, often results in the creation of data silos, communication bottlenecks, and operational delays. Successfully implementing automation and deploying custom applications necessitate a deep understanding of intricate business processes, the ability to integrate disparate data sources seamlessly, and expertise in deploying user-friendly tools that align with and advance organizational objectives.

### SOLUTION

Avange's PowerApps and Power Automate Deployment service is meticulously designed to navigate and address these challenges. The service is committed to implementing automated processes and applications that are fully functional and align with your specifications. The process initiates with a thorough assessment of your process diagrams, existing Microsoft 365 environment, and data structures. Our seasoned experts craft a detailed scope of work, specifications, and a strategic action plan aimed at integrating the requisite business processes into the Power Platform environment. Through rigorous testing, handover, and comprehensive documentation, we guarantee the delivery of automated processes and applications that not only meet but exceed your specifications, thereby enhancing productivity and operational efficiency within your organization.

### VALUE PROPOSITION

## About Avange

Avange was born out of a deep understanding of both the corporate and humanitarian worlds. Our team boasts professionals who have collaborated with global giants in the private sector and have also been on the ground with esteemed organizations like the United Nations and Doctors Without Borders (MSF) European Space Agency (ESA), Argentinian Ministry of Health, and many other organizations around the world. This rich tapestry of experiences ensures that our approach is always rooted in real-world challenges and solutions.

Our strength lies in our diverse backgrounds, with team members who have navigated the precision of the corporate world and the unique demands of healthcare, NGOs, and government projects. This blend equips us with a holistic perspective, allowing us to craft IT solutions that are not only technologically advanced but also culturally sensitive and mission-aligned.

At Avange, we pride ourselves on our ability to bridge the gap between technology and the humanitarian and healthcare sectors. Our collective experience is our greatest asset, and our commitment is unwavering: to empower organizations to achieve more, serve better, and make a lasting impact.
